New Piano Course in Three Volumes

A. B. C. PIANO COURSE

By ROBERT E. MILLER

Book 1: Easy Beginning. Takes up the study of primary rudiments and simple melodies, starting at once with both clefs.

Book 2: An ideal "Step Ahead." Embodies many original, practical points. Time Problems are introduced throughout and at the end has a concise treatise on the "Pedals of the Pianoforte" by Carl Wilhelm Kern.

Book 3: A Melody Book designed not only to follow Book 2 of this Course, but one that may be used advantageously in connection with any other method. The pieces and melodious etudes are represented in ALL keys. The Scales, major and minor, are added for reference.
